

Enviro**binder**

Binders are essential in business today to organize and display business materials. However, if you have a green message, you simply cannot promote your ideas in a vinyl binder. So what do you do if your clients are environmentally conscious? The answer is the Enviro-binder!

What is the Enviro-binder?

- An earthy, elegant solution to presentation marketing
- Made of 100% post-consumer recycled chipboard
- Printed with low VOC-emitting, renewable vegetable-based inks
- It's a cost-effective solution - priced equivalent to a PB-145 folder printed on a Group I paper stock
- Available in many other popular folder styles and configurations
- The perfect way to "green up" your presentations

Benefits of the Enviro-binder:

- Feel better about the environmental impact of your marketing efforts.
- Heavy 26pt. chipboard is durable and lasts longer, thus reducing costs for replacement.
- Make yours look elegant with spot PMS inks and blind embossing.
- Combine with printing your inserts on recycled or FSC certified papers to maintain your green theme.
- Have your presentation appeal to your "green-minded" clients!
